QUICK LIFT PALLET TRUCK

5,500 LB CAPACITY

3" LOWERED HEIGHT

FEATURES & BENEFITS

- The quick lift pallet truck is an ideal truck for light load handling.
- Whenever lifting loads under 300 kg / 660 lbs, it takes just 5 strokes to reach maximum height.
- For loads above 300 kg / 660 lbs, the quick lift hydraulic system automatically switches to normal operation.

WARRANTY

Atlas warrants this equipment when used under normal operating conditions excluding acid and alkali environments, to be of proper materials and first class workmanship. We agree to exchange, excluding labor, any defective moving parts (bearings and wheels, and hydraulic parts not including the chassis) returned to us by prepaid freight within 12 months from date of shipment.
